

## RoHS And REACH COMPLIANCE DECLARATION

Electric Control Products ensures that the products manufactured in its factory and delivered to the distributors meet the current regulations regarding environmental safety and safeguard the health of its production and operation staff.

### **RoHS Directive (Restriction of Harmful Substances)**

Electric Control Products complies to the criteria set out by the European Union ROHS2 Directive (2011/65/EC). This applies restrictions on certain hazardous substances in electronic and electrical devices manufactured by Electric Control Products. The products used or manufactured comply with the restrictions on hazardous substances found in the European Chemicals Agency "Candidate List of substances of very high concern"

### **REACH (Registration, Evaluation, Authorisation, Restriction of Chemicals)**

Electric Control Products evaluation of our role under the terms of REACH can confirm that at this time, Electric Control Products does not manufacture, Import or Export chemicals in excess of 1 ton per year, mix or prepare chemicals or substances or store in containers.

Our OH&S review processes always keep the SDS (Safety Data Sheets) from suppliers up to date for production processes and are available to all staff. Any chemicals or substances used in any process are used by fully trained staff using only the correct PPE (Personal Protection Equipment).

### **Asbestos Free Declaration of Conformity**

Electric Control Products declare that all of its manufactured products or products that it sells are totally asbestos free.
